Int J Gynecol Obstet, 1993, 40: 285–287
International Federation of Gynecology and Obstetrics

Subject Index

Volume 40

Abdominal myomectomy, uterine leiomyoma, infertility, life-table analysis, 45
Abdominal total hysterectomy with bilateral salpingo oophorectomy, stromal sarcoma, 161
Accessory, anomaly, labium majus, 250
Acute viral hepatitis, hepatitis B virus, pregnancy, maternal mortality, perinatal mortality, vertical transmission, 25
Age, menopause, symptoms, 151
Amniotic fluid volume, nonstress test, intrauterine growth retardation, 131
Amniotic fluid volume, nonstress test, postterm, 213
Analgesic, pregnancy, termination, prostaglandin, 51
Anomaly, accessory, labium majus, 250

Bilirubin, oxytocin, saline, glucose, neonatal jaundice, 235
Blood transfusion, cesarean section, preterm delivery, postoperative complications, endomyometritis, 227
Blood, lead, cadmium, myometrium, placenta, preterm labor, 109
Bone metastasis, choriocarcinoma, 252
Broad uterine fundus, sign, intrauterine septum, recurrent pregnancy loss, 65

Cadmium, lead, blood, myometrium, placenta, preterm labor, 109
Cervix, pregnancy, twin, isthmus, cesarean section, 59
Cesarean section, pregnancy, twin, cervix, isthmus, 59
Cesarean section, preterm delivery, postoperative complications, endomyometritis, blood transfusion, 227
Choriocarcinoma, bone metastasis, 252
Color Doppler, fallopian tube, infertility, 241
Complicated delivery, high risk pregnancy, referral system, risk approach, 33
Cystic teratoma, dermoid cyst, rupture, 163

Dermoid cyst, cystic teratoma, rupture, 163
Developing countries, maternal tetanus, maternal mortality, tetanus, puerperal sepsis, postabortal tetanus, induced abortion, tetanus immunization, 3
Developing countries, teenage pregnancy, perinatal outcome, 19
Doppler, umbilical artery waveforms, high risk pregnancy, pregnancy induced hypertension, growth retardation, 115

Endometrial biopsy, progesterone challenge test, endometrial pathology, endometrial cytology, menopause, 145
Endometrial cytology, endometrial biopsy, progesterone challenge test, endometrial pathology, menopause, 145
Endometrial pathology, endometrial biopsy, progesterone challenge test, endometrial cytology, menopause, 145
Endometrioma, transvaginal aspiration, 64
Endomyometritis, cesarean section, preterm delivery, postoperative complications, blood transfusion, 227

Fallopian tube, color Doppler, infertility, 241
Fetal distress, fetal heart rate, 157
Fetal heart rate, fetal distress, 157
Fetal sex, hyperemeisis gravidarum, human chorionic gonadotropin, 63

Glucose, oxytocin, saline, bilirubin, neonatal jaundice, 235
Grandmultipara, induction of labor, prostaglandin E_2, unripe cervix, 119
Growth retardation, Doppler, umbilical artery waveforms, high risk pregnancy, pregnancy induced hypertension, 115

Hepatitis B virus, acute viral hepatitis, pregnancy, maternal mortality, perinatal mortality, vertical transmission, 25
High risk pregnancy, complicated delivery, referral system, risk approach, 33
High risk pregnancy, Doppler, umbilical artery waveforms, pregnancy induced hypertension, growth retardation, 115
Human chorionic gonadotropin, hyperemeisis gravidarum, fetal sex, 63
Human immuno-deficiency virus, pregnancy, seropositive, vertical transmission, 105
Hyperemeisis gravidarum, fetal sex, human chorionic gonadotropin, 63
Hypogammaglobulinemia, pregnancy, intravenous gammaglobulin treatment, 162
Hysterectomy, vaginal, ureter, uterosacral-cardinal ligament complex, 141

Induced abortion, maternal tetanus, maternal mortality, tetanus, puerperal sepsis, postabortal tetanus, developing countries, tetanus immunization, 3
Induction of labor, grandmultipara, prostaglandin E_2, unripe cervix, 119
Infant mortality, low birthweight, prematurity, 199
Infertility, abdominal myomectomy, uterine leiomyoma, life-table analysis, 45
Infertility, fallopian tube, color Doppler, 241
Intrauterine growth retardation, amniotic fluid volume, nonstress test, 131
Intrauterine septum, broad uterine fundus, sign, recurrent pregnancy loss, 65
Intravenous gammaglobulin treatment, hypogammaglobulinemia, pregnancy, 162
Isthmus, pregnancy, twin, cervix, cesarean section, 59

Kidney functions, pre-eclampsia, umbilical artery blood flow, nifedipine, 39

Labium majus, anomaly, accessory, 250
Lead, cadmium, blood, myometrium, placenta, preterm labor, 109
Leiomyosarcoma, small intestine, pelvic mass, 66
Leiomyosarcoma, uterus, spontaneous hemoperitoneum, 249
Life-table analysis, abdominal myomectomy, uterine leiomyoma, infertility, 45
Low birthweight, infant mortality, prematurity, 199

Maternal mortality, acute viral hepatitis, hepatitis B virus, pregnancy, perinatal mortality, vertical transmission, 25
Maternal mortality, maternal tetanus, tetanus, puerperal sepsis, postabortal tetanus, induced abortion, developing countries, tetanus immunization, 3
Maternal tetanus, maternal mortality, tetanus, puerperal sepsis, postabortal tetanus, induced abortion, developing countries, tetanus immunization, 3
Menopause, age, symptoms, 151
Menopause, progesterone challenge test, endometrial pathology, endometrial biopsy, endometrial cytology, 145
Myometrium, lead, cadmium, blood, placenta, preterm labor, 109

Neonatal jaundice, oxytocin, saline, glucose, bilirubin, 235
Nifedipine, pre-eclampsia, umbilical artery blood flow, kidney functions, 39
Nonstress test, amniotic fluid volume, intrauterine growth retardation, 131
Nonstress test, amniotic fluid volume, postterm, 213

Oxytocin infusion regimen, trial, 219
Oxytocin, saline, glucose, bilirubin, neonatal jaundice, 235

Pelvic mass, leiomyosarcoma, small intestine, 66
Perinatal mortality, acute viral hepatitis, hepatitis B virus, pregnancy, maternal mortality, vertical transmission, 25
Perinatal outcome, pregnancy, urolithiasis, ureteral stent, ureter, ultrasound, 135
Perinatal outcome, teenage pregnancy, developing countries, 19
Placenta, lead, cadmium, blood, myometrium, preterm labor, 109
Postabortal tetanus, maternal tetanus, maternal mortality, tetanus, puerperal sepsis, induced abortion, developing countries, tetanus immunization, 3
Postoperative complications, cesarean section, preterm delivery, endomyometritis, blood transfusion, 227
Postpartum, toxic shock syndrome, *Streptococcus*, 245
Postterm, amniotic fluid volume, nonstress test, 213
Pre-eclampsia, umbilical artery blood flow, nifedipine, kidney functions, 39
Pregnancy induced hypertension, Doppler, umbilical artery waveforms, high risk pregnancy, growth retardation, 115
Pregnancy, acute viral hepatitis, hepatitis B virus, maternal mortality, perinatal mortality, vertical transmission, 25
Pregnancy, human immuno-deficiency virus, seropositive, vertical transmission, 105
Pregnancy, hypogammaglobulinemia, intravenous gammaglobulin treatment, 162
Pregnancy, perinatal outcome, urolithiasis, ureteral stent, ureter, ultrasound, 135
Pregnancy, termination, analgesic, prostaglandin, 51
Pregnancy, twin, cervix, isthmus, cesarean section, 59
Prematurity, infant mortality, low birthweight, 199
Prenatal quantitation, X-chromosomes, slot blot hybridization, 123
Preterm delivery, cesarean section, postoperative complications, endomyometritis, blood transfusion, 227
Preterm labor, lead, cadmium, blood, myometrium, placenta, 109
Progesterone challenge test, endometrial pathology, endometrial biopsy, endometrial cytology, menopause, 145
Prostaglandin E_2, induction of labor, grandmultipara, unripe cervix, 119
Prostaglandin, pregnancy, termination, analgesic, 51
Puerperal sepsis, maternal tetanus, maternal mortality, tetanus, postabortal tetanus, induced abortion, developing countries, tetanus immunization, 3

Recurrent pregnancy loss, broad uterine fundus, sign, intrauterine septum, 65
Referral system, high risk pregnancy, complicated delivery, risk approach, 33
Risk approach, high risk pregnancy, complicated delivery, referral system, 33
Rupture, dermoid cyst, cystic teratoma, 163

Saline, oxytocin, glucose, bilirubin, neonatal jaundice, 235
Seropositive, pregnancy, human immuno-deficiency virus, vertical transmission, 105
Sign, broad uterine fundus, intrauterine septum, recurrent pregnancy loss, 65
Slot blot hybridization, prenatal quantitation, X-chromosomes, 123
Small intestine, leiomyosarcoma, pelvic mass, 66
Spontaneous hemoperitoneum, leiomyosarcoma, uterus, 249
Streptococcus, toxic shock syndrome, postpartum, 245
Stromal sarcoma, abdominal total hysterectomy with bilateral salpingo oophorectomy, 161
Symptoms, menopause, age, 151

Teenage pregnancy, perinatal outcome, developing countries, 19
Termination, pregnancy, analgesic, prostaglandin, 51
Tetanus immunization, maternal tetanus, maternal mortality, tetanus, puerperal sepsis, postabortal tetanus, induced abortion, developing countries, 3
Tetanus, maternal tetanus, maternal mortality, puerperal sepsis, postabortal tetanus, induced abortion, developing countries, tetanus immunization, 3
Toxic shock syndrome, *Streptococcus*, postpartum, 245
Transvaginal aspiration, endometrioma, 64
Trial, oxytocin infusion regimen, 219

Twin, pregnancy, cervix, isthmus, cesarean section, 59

Ultrasound, pregnancy, perinatal outcome, urolithiasis, ureteral stent, ureter, 135
Umbilical artery blood flow, pre-eclampsia, nifedipine, kidney functions, 39
Umbilical artery waveforms, Doppler, high risk pregnancy, pregnancy induced hypertension, growth retardation, 115
Unripe cervix, induction of labor, grandmultipara, prostaglandin E_2, 119
Ureter, hysterectomy, vaginal, uterosacral-cardinal ligament complex, 141
Ureter, pregnancy, perinatal outcome, urolithiasis, ureteral stent, ultrasound, 135
Ureteral stent, pregnancy, perinatal outcome, urolithiasis, ureter, ultrasound, 135
Urolithiasis, pregnancy, perinatal outcome, ureteral stent, ureter, ultrasound, 135
Uterine leiomyoma, abdominal myomectomy, infertility, life-table analysis, 45
Uterosacral-cardinal ligament complex, hysterectomy, vaginal, ureter, 141
Uterus, leiomyosarcoma, spontaneous hemoperitoneum, 249

Vaginal, hysterectomy, ureter, uterosacral-cardinal ligament complex, 141
Vertical transmission, acute viral hepatitis, hepatitis B virus, pregnancy, maternal mortality, perinatal mortality, 25
Vertical transmission, pregnancy, human immuno-deficiency virus, seropositive, 105

X-chromosomes, prenatal quantitation, slot blot hybridization, 123
